

INTERVIEW SUMMARY

This Interview Summary is further to the Examiner's Interview with the undersigned Applicant's Representative on July 6, 2004. During the Interview, independent Claim 1, U.S. Patent No. 6,011,991 ("Mardirossian"), and U.S. Patent No. 6,230,048 ("Selvester") were discussed. Applicant's Representative pointed out that Mardirossian does not teach or suggest a method of providing real-time decision support in the review of physiological data including the act of interpreting the physiological data based on a predetermined set of criteria to generate an interpretation. Applicant's Representative also pointed out that Selvester does not teach or suggest a method of providing real-time decision support in the review of physiological data including the act of displaying the interpretation and the correlated physiological data records on a display. An agreement with respect to Claim 1 was not reached during the Interview.

The obviousness type double patenting rejection was also discussed. The Examiner indicated that the rejection can be overcome by pointing out which claimed elements in the present application are not included in the claims of U.S. Patent No. 6,665,559.
